3. (CONTINUED) I told the worker that the person that did this is the one who called and reported it. my childs father poisoned me. Yet I was to comply with all the things asked of me. all while they took my kids away for almost a year. I have no record of drugs or reported problems. They never checked on him or his record to show several attempts of SuSide/drugs prior and present yet I lost my kids because NO one checked on him.

4. WHEREFORE, plaintiff prays that I lost my world, my kids arn't the same! this is something I didn't see coming, but was, I have to get things back to the way it was, it's been impossible. Kids have medical issues that can't get addressed. There's a negitive energy that follows me around and it's not here to help. I'm <sup>not</sup> getting anywhere because of them (Child Services Agency) AKA Dauphin

My kids are not the same who  
gives them a ~~right~~ right to take  
my kids after I was requesting  
help my kids father is a bad person  
and is no longer in our life. He poisoned  
me and I fell sick that day. He fled and  
I was sick and knew if he was still here I  
couldn't leave. He knew it was over and  
wanted control, I was on my way to the  
emergency room and as I was walking  
out the door here walks up a lady from  
dauphin County, CYS. Can I drug test you?  
OK I said then they took my kids

There's something wrong with Julians stomach and has a problem with his BM. X rays of his head show problems. Since his return to me and no one has and answers of why there are spaces in the front and back of his head. Everytime I visited them while in foster care they were quite and Julian was always thirsty and wanted to lay his head on me the whole time.

And Since he dosent have any fever they wont check him out any further. He also has a problem talking and eating, which I did get help for.

Andrew was 2 yrs. old while in foster care and his foster parents were allowed to spank him? I did not give premission to any one to do so, that short period of time a lot went on.

Andrew also has ongoing health issues including a tumor in his neck - .

I am requesting Compensation for all the Losses and which has resulted into medical issues and Andrews eating to compensate which has a force to effect his suffering.

He definitely can use therapy. He angry constantly we need better insurance to get the ~~to~~ right help.

Same with Julian all of their medical are not as important as it should be. he has a problem talking due to the Shaking that occurred during his time with the unfit foster family. I can't pin point exactly what they did to ~~the~~ ~~make~~ keep him from crying for his mom but they thought they were gonna keep them and so they handled ~~as~~ they were keep them and i was possibly gonna relapse on my Sobriety they accused me of being a drug user that i wasn't

My privacy was exploited by an advocate who represents Dauphin County and Children and Youth.

I was asked personal questions over the phone by a lady who said she worked for CVS. She then began to ask me questions and I stopped her and said no I will not be participate in this and she said she was trying to build my family tree. I said no she and I ended the call. She didn't stop there. She had my mom's info and called her. My mom wasn't informed before hand to not tell her my info but the lady had already knew I was a no go. My mom helped her with our family tree. She then contacted everyone via Facebook to tell them my kids were taken away, and if they could help support me in any way. I did not want these people to know about this issue as I thought this was a mistake in the first. This went too far.

Induding my mental health and they said that since I have mental health issues I can't get my kids back.

I still have mental health issues and always will. ADHD and anxiety will be apart of my life forever. Thats not a good reason to keep my kids away from me.

At that point that drug test wasn't even the issue because they knew I wasn't a drug addict. they were just going on me everywhere possible. I went

above and beyond to complete each tasks they continued to add to the pile. Manytimes

I wanted to give up because I didn't understand why they would do this to the extent that it went, but to court hearings and no kids yet. Thats one reason fell into

deeper depression. All negativity from every person at the court table. They only say things to make you hate them all the while it was for no reason. They kept my parenting certificate. Can I have it back?

My privacy is a big deal to me especially when the evidence was based on false pretenses, so I have the right to decline any service. Court records show that CVS contacted over 60 people family and friends whom all live in California. If I needed any of them to help me I would of called myself and asked! So violating when my family that is here in Pennsylvania was helping me during the time of the removing of my kids by dauphin County.
